NOTICE OF APPLICATION TO APPROPRIATE WATER BY PERMIT

APPLICATION: 31489

COUNTY: Kern

DATE FILED: January 15, 2004

STREAM SYSTEM: San Emigdio Creek

Notice is hereby given that Pine Mountain Club Property Owners Association filed an application for a water right permit. The State Water Resources Control Board (SWRCB) will determine whether a water right permit should be issued for the application and, if so, whether conditions are needed in the permit to protect the environment, the public interest, and downstream water users. This notice provides a description of the proposed project and also describes the procedure and time frame for submittal of protests against the application. This notice may be viewed at the Division of Water Rights' (Division) website at www.waterrights.ca.gov. Any correspondence directed to the applicant should be mailed to:

Pine Mountain Club Property Owners Association
c/o Jeff Kohl
P.O. Box P
Pine Mountain Club, CA 93222-0016

Description of Project

The applicant seeks a right to store water in three existing ponds (Fern's Lake, Lake 1-upper and Lake 2-middle) and to continue to divert 0.5 cubic foot per second by direct diversion. Fern's Lake has a 5-foot-high dam forming a 44 acre-feet (af) capacity reservoir with a surface area of 3.1 acres. Lake 1-upper has a 3-foot-high dam forming a 10.5 af capacity reservoir with a surface area of one acre. Lake 2-middle has a 4-foot-high dam forming a 10.5 af capacity reservoir with a surface area of one acre. Fern's Lake is an onstream reservoir and collects reservoir inflow from Unnamed Creek (1). In addition, supplemental water is diverted by gravity flow from the point of diversion at another Unnamed Creek (2) via an existing 10-inch steel pipeline. Water is pumped from Fern's Lake to offstream Lake 1-upper. The overflow from Lake 1 runs through offstream Lake 2 via a man-made ditch. From Lake 2, water drains over a spillway into the ditch, to Unnamed Creek (1), back to Fern's Lake. Lake 1 and Lake 2 are offstream and situated on the man-made ditch tributary to Unnamed Creek (2) above Fern's Lake. The project has existed since 1971. The water is used for the purposes listed below including the irrigation of 40 acres of golf course.

The project is located approximately 12 miles west of Frazier Park and approximately 15 miles west of Interstate 5 on the Grapevine.

Summary of Application

County: Kern

Source: Two Unnamed Creeks tributary to San Emigdio Creek thence Buena Vista Lake.

Points of

Diversion: within the SW ¼ of NE ¼ of Section 19, T9N, R21W, SBB&M
At Fern Lake within the NW ¼ of NE ¼ of Section 19, T9N, R21W, SBB&M

Amount: a. 0.5 cfs of direct diversion, not to exceed a total of 135 af per year
b. 65 af per year of storage
The total combined amount taken by direct diversion and storage during any one year shall not exceed 200 af.

Season: a. April 1 to November 1 for direct diversion
b. January 1 to December 31 for storage

Purposes: Irrigation, Recreational, Fish and Wildlife Enhancement, Fire Protection

Place of Use:

Use Within	Section	Township	Range	B & M	If Irrigated	
					Number of Acres	Presently Cultivated (Y/N)
S ½ of NW ¼	19	9N	21W	SB	24	Y
NE ¼ of NW ¼	19	9N	21W	SB	13	Y
NW ¼ of NE ¼	19	9N	21W	SB	3	Y
				Total	40	

Environmental Information

The lead agency will prepare the appropriate environmental documents for the project according to the California Environmental Quality Act (CEQA) and its guidelines, and will determine whether or not the project will cause a significant effect on the environment. If you are not filing a protest, but wish to submit information that indicates the project may cause a significant effect on the environment, please send this information to Steven Herrera; SWRCB, Division of Water Rights; P.O. Box 2000; Sacramento, CA 95812-2000. This information will be reviewed in accordance with CEQA.

PROTEST SUBMITTAL INFORMATION

Protest Requirements

A person may file a protest based on any of the following factors:

- Interference with prior water rights.
- Adverse environmental impact.
- Not in the public interest.
- Contrary to law.
- Not within the jurisdiction of the SWRCB.

All protests must clearly describe the objections to approval of the application and the factual basis for those objections. There must be a clear link between the proposed project and the objection to its approval. If the objection is based on interference with prior water rights, the protest must describe specifically what injury would result if the application is approved. In addition, the party claiming interference with prior rights must provide specific information describing the basis of the prior right, the date the use began, the quantity of water used, the purpose of use and the place of use. Please note that any water right permit issued by the SWRCB is subject to vested water rights and will include conditions to protect such rights.

If the protest is based on an allegation that the proposed appropriation would not be within the SWRCB's jurisdiction, would not best conserve the public interest or public trust uses, would have an adverse environmental impact, or would be contrary to law, the protest must be accompanied by a statement of facts supporting the allegation.

For example, public interest protests should clearly indicate how the appropriation will affect the public; environmental protests should identify specific impacts and provide supporting recitals on the effect of the proposed project on plants, animals, fish, erosion, pollution, aesthetics, etc.; public trust protests must identify the navigable waters and public trust values that would be affected by the proposed project and how the project will impact public trust values.

All protests should include a description of any measures that could be taken to resolve the protest. The protest also must indicate the manner in which the protestant served upon the applicant a duplicate copy of the protest.

If sufficient information is not submitted, the SWRCB may reject the protest or request that the protestant submit additional information. Protests of a general nature (not project specific) or protests that are inconsistent with constitutional or legislated state policy will not be accepted. A request for information or a request that studies be conducted does not constitute a protest.

Procedure for Submitting Protests

Protests should be submitted on standard protest forms available from the Division's website at www.waterrights.ca.gov/forms/ or upon request, in writing or by telephone, from the Division. A pamphlet that provides additional information relating to water rights and the procedure for filing protests is also available on the website or by mail. Any requests or the submittal of the completed protest form should be directed to the individual listed as the contact person at the end of this notice. **A copy of the completed protest form must also be mailed to the applicant.**

Protest Submittal Deadline

Protests submitted in response to this notice must be received by the Division by 3:00 p.m. on the **40th** day after the date of this notice (the close of the protest period). Protests may be submitted by any of the following methods:

1. Mailed to Division of Water Rights; P. O. Box 2000; Sacramento, CA 95812-2000
2. Faxed to the Division at (916) 341-5400
3. E-mailed to the engineer listed below under the heading "Contact Person"
4. Hand-delivered to the Division office located at 1001 "I" Street, 14th Floor, Sacramento, CA

If you choose to fax or e-mail the protest due to the constraints of the noticing period, the fax or e-mail must be followed by timely delivery of an original signed copy, either personally or by mail, to the Division in order for the protest to be accepted. The SWRCB will respond to all protests within 60 days of the final day to file a protest. **Protests not submitted by the close of the protest period will be subject to rejection.**

For good cause, the SWRCB may grant an extension of time to file a protest. It is the protestant's responsibility to contact the engineer listed below as "Contact Person" to request the extension prior to the end of the protest period.

Resolution of Protests

The applicant will have 30 days to respond to a protest once it is accepted by the Division. The protestant and the applicant are expected to make a good faith effort to resolve the protest within 180 days from the close of the protest period.

This is a "minor" project (the proposed diversion is 3 cubic feet per second or less by direct diversion or 200 acre-feet or less per year by storage) as defined by section 1348 of the Water Code. Therefore, any protest issues not resolved by the applicant or by provisions of section 1335 of the Water Code will be decided by the Chief, Division of Water Rights, following a field investigation.

CONTACT PERSON

To obtain additional information regarding this project, or to obtain copies of protest forms, or general information pamphlets, please contact Yoko Mooring by phone at (916) 341-5362 or by electronic mail at y_mooring@waterboards.ca.gov. Information and protest forms are also available at the Division's website: www.waterrights.ca.gov/forms/.
